NLR - until No Leprosy Remains is a Dutch non-profit organization committed to a world without leprosy and its consequences. It tries to achieve this by supporting health authorities in countries where leprosy is prevalent. NLR promotes the independent social and economic functioning of leprosy patients and their families. By supporting scientific research NLR wants to improve the effectiveness of leprosy control.

Light for the World is an international NGO and has been so generous to make it possible to give a contribution for the year 2023 in order to facilitate the migration from Ubiquity Press and Liliane Foundation to the University of Gondar.
